# WILL TAKE ADVANTAGE OF FREE MEAT ENTRY

---

Foreign Packers Ship Frozen  
Beef and Mutton to This  
Country—Cuts Cost.

Four hundred thousand pounds of frozen Australian beef and mutton, the first shipment of its kind to the Pacific coast, were landed in San Francisco yesterday from the steamer Tahiti. The meat was sold in Australia with the understanding that only a nominal profit should be made in San Francisco. The United States excluded Australia will ship direct, eliminating the middleman's profit and assuming all the risk. An immediate fall in prices is expected. California and the Pacific coast states eat meat raised west of the Rocky mountains, and the comparative prices show that the average prices are higher in San Francisco than in Chicago.

In an effort toward reduction independent dealers arranged for the Australian shipment.

The Union Steamship Company is so

ment that it has placed orders for four refrigerator ships, to be used exclusively on the Australian-San Francisco run.

**May Import Argentine Meat.**

There is talk that two steamship lines relying between the Argentine Republic and New York plan to take advantage of the entry of free meat into the United States. South America has been gradually cutting this country out of the meat trade with England. Last year the department of agriculture shipped more than 1,000,000 carcasses of meat animals to England, the statistics show, but this year we shipped only 34,000 carcasses.

On the other hand South America has been shipping more to England than more than 2,000,000 carcasses.

The expectation now is that the tide of trade in this department between South America, will be turned to this country.

**Promises Cheaper Meat.**

Officials of the Department of Agriculture say this will mean a material reduction in the price of meat. Another thing, according to the bureau of animal industry, is that the department will help the domestic meat supply in the eradication of the cattle tick that

This pest has always prevented the rearing of probable beef cattle in the south, but since 1906 the department has been co-operating with the southern states in clearing the cattle pastures of the pest.

This looked at the outset like an almost impossible task, but surprising progress has been made. More than 100,000 head of cattle from the country have been declared "tick-free" and released from the cattle quarantine.

This will largely increase the supply of American grown beef, and the government, the Department of Agriculture thinks, is for cheaper meat.

**DEALERS DO NOT EXPECT**

## LOWER PRICES OF MEATS

---

### Comment on Project to Import Supply From Australian Packers.

---

Retail meat dealers of Washington refuse to take seriously the project of western interests, co-operating with packing interests in Australia and with trans-Pacific steamship lines, to import frozen meats from Australia to the United States, declaring that if such importations

"The Pacific coast people," said one of the dealers today, "use fresh meats that are brought in from the coast of the Rockies and along the Pacific slope. Stock raisers of that section never have disposed of their live stock to the eastern packers, though a few years ago two big meat packers established packing houses at several points along the coast. These establishments use cattle, hogs and sheep produced in the far west, and were established mainly for the purpose of getting control of the country, with the further idea of cutting off transportation expenses from Omaha or Chicago. If enough frozen meat is brought in from the coast to send the locally produced meat east. This would mean a large loss to the eastern packers of this country, but transportation charges would in all probability keep prices up to the level of the coast. It would be to haul freight 2,500 or 3,000 miles."

**No Reductions in Sight.**

Local dealers report absolutely no change in prices of fresh meats for the past month or more, and say no reductions in sight at this time. Rather, they say, prices of prime beef, veal and pork may advance within a couple of weeks.

Prices of dressed poultry remain firm at close to previous quotations. Broilers are 40 cents a pound, fryers, 35 to 36 cents; soft roasters, 32 to 33 cents; fowls, 22 cents; soft ducks, 22 to 25 cents; roosters, 15 cents, and ducklings, 25 cents.

Retail prices of fresh fish remain practically unchanged, rose shad bringing 6 cents each, the bucca selling at 35 cents each.

Salmon is scarce and high, bringing

ing 40 cents a pound, an advance of 15 cents a pound over last week's price. Sea trout is 10 cents a pound, a 5-cent reduction. Flounders are 12½ cents a pound; bluefish, 15 cents a pound; rockfish, 21 cents; porgies, 12½ cents a pound; eels, 12½ cents; Boston mackerel, 50 cents each; lighters, 30 cents a pound; soft crabs, 50 cents a dozen; clams, 30 cents a quart.

**Sweet Corn on Market.**

One dealer in Center market had sweet corn on his stand today, the price being 10 cents a dozen. Last week

**HOO'S HO**

By John V

Whose map, of old, was wont to grace the sheets most every day, when nothing went in old New York without his own O. K.? Whose specialties, as we recall, were filling up the jails with ginks who dealt in policy—and rolling coffin nails? Who mixed with Tommie Lawson in an after-dinner spiel, and put your Harry Kendall Thaw behind the doors of steel? Who failed to hitch with Tammany and played his hand alone and beat the Tiger at a game it thought was all its own? Who knows the limelight now no more and lingers close to home, with makin's always near at hand?

Rogers-Peet needs no commendation. For over half a century it has held first place in the esteem of America's best dressers. It is founded on quality—the highest type of tailoring excellence, skill and taste and determination can produce. As the sole agents here—we give you choice of their complete lines of effective models and patterns—at the home store prices—\$2000 to \$6000.
